90 Degree Benefits

■ ■ ■ The Right Turn For Your Benefits

The 90 Degree Benefits CareConnect program **offers an unmatched level** of insight and support to employers and members. While most health plans require members to navigate a complicated maze of rules and procedures in order to access quality healthcare, the Care Coordinator will locate a provider with a high quality, fair priced facility in the easiest possible manner. Members have one phone number to call for all needs. The Care Coordinator will explain benefits, answer questions and research procedures for the member.

A Simplified Healthcare Experience Awaits

As the healthcare system changes, individual members have become more accountable for their health needs. But to be better healthcare consumers, members need better access to service, quality, and cost information; only then can they make effective, informed decisions. We provide the patient education and support that drives lower cost.

It is important to remember for all hospital or facility based services you must contact CareConnect prior to services being rendered. *Members do not use a PPO for facility care but may use the PPO network for all physician services.*

Care Coordinator services are required for all listed services:

- All Hospital Services Inpatient & Outpatient
- All Non-Office Surgery
- Outpatient Lab, Radiology and Diagnostic Testing
- Maternity and Newborn Services
- Rehabilitation/Therapy Services
- Extended Care Services
- DME - Orthotics/Prosthetics
- Sleep Disorders

90 Degree Benefits CareConnect helps point members in the right direction:

- ➔ Access to a Care Coordinator
- ➔ Unbiased doctor recommendations
- ➔ Hospital cost and quality information
- ➔ Complete guidance for your healthcare
- ➔ Insider information on saving money

90 Degree Benefits CareConnect identifies the most effective cost, service and quality options for medical services, allowing members and the employer to save money.
