

Tribal Access Rx Program Savings Calculator

A Turn For The Better

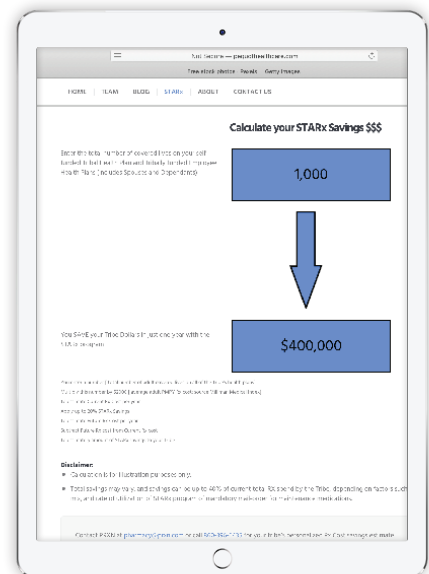

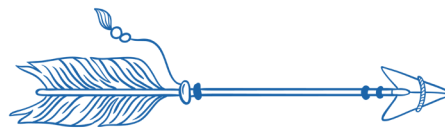

You can proactively save 20-40% on your pharmaceutical costs with STARx by 90 Degree Benefits and Pequot Pharmaceutical Network. Pharmaceutical costs, especially specialty medications, are the fastest rising healthcare costs nationwide and can easily bankrupt tribes. STARx gives you access to major drug discounts through the Federal Supply Schedule program so you can save on pharmaceutical costs and reinvest money in your tribe and community.

Calculate Your Savings

The STARx interactive calculator lets you see how much you could save based on the number of covered employees in your self-funded and tribally funded health plans.

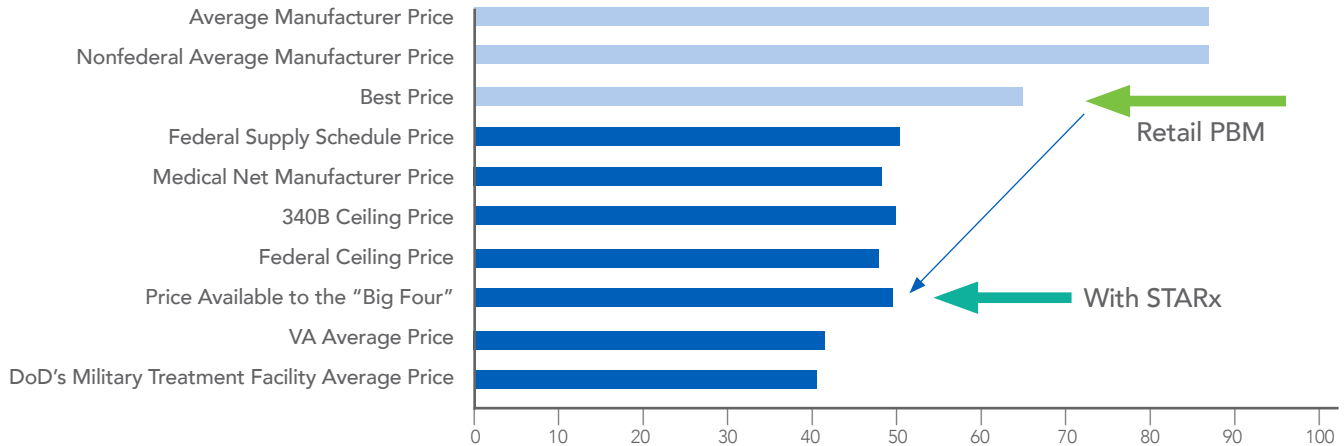

Scan our QR code or visit <http://pequothealthcare.com/starx/> to calculate your STARx savings.

Tribal Drug Discount = Big Savings

Estimated prices paid to manufacturers, relative to list price, for brand-name drugs under selected federal programs, 2003

(Percent)

Source: Congressional Budget Office. | Notes: In this analysis, the list price is the average wholesale price.

STARx Savings in Action

Examples of Rx Pricing : Managed Care Retail vs PHC Cost Plus Mail

Drug Name	NDC	Strength	Brand/Generic	Metric Qty	Days Supply	AWP	Acquisition Cost	AWP 18%/75%	Cost+\$25	Savings	Savings %
